

Data Analysis – 2025 Gifts & Donations

There is a significant difference between the gifts and donations recorded in the STRIPE and PayPal files we received from Margaret Llateras **(\$24,713.43)** than what is recorded in Little Green Light **(\$45,482.98/or \$45,514.64)**.

This is due in part to a large number of checks received (**56 check donations - \$35,111.85**). That is much larger number than I had anticipated.

I had hoped that our donation totals would go up by looking in STRIPE, instead they are actually much lower. However, Bob, Ray Brady and my donations are all listed in the STRIPE file but our 'Gifts' are missing in Little Green Light. That does point to a Form issue.

Little Green Light only sees Seven (7) PayPal 'Gifts' for the year, yet there are fifty (50) Records in the 2025 PayPal file we received from Margaret. 42 are *Membership Renewals* and seven are *Program Support* donations. Evidently membership renewals in PayPal are not reflected as such in LGL.

This exercise was not as useful as I had hoped it would be, as I am unable to reconcile how Little Green Light is actually counting with the STRIPE and PayPal Files we recently Received through Deb from Margaret.
